## Engagement Surveys

### What is employee engagement?

It's about performance. It's about putting in place working conditions and practices so your people 'go the extra mile' and deliver the results you need.

### Can your organisation afford poor performing employees?

Unhappy, disengaged employees cost UK business more than £40bn every year. Organisations with engaged workforces are more productive and generate up to 85% more profit.

### Is it expensive?

Employee engagement is about good systems, good management and leadership and that doesn't have to cost anything. And because you benefit from increased revenue, reduced costs and boosted profit in a matter of weeks you'll quickly recover any costs that you do incur.

### Who uses 3Ease?

In the current environment there is huge pressure to drive down costs, maximise sales and improve service. SME's across the UK are using 3Ease because engaged workforces deliver better business performance and positively impact on your bottom line.

### 3Ease are the only engagement surveys designed exclusively for SME's:

- Completely anonymous & confidential to encourage everyone to respond
- On-line (and paper based) questionnaires so no-one gets left out
- Easy to understand the survey only take 10 minutes to complete
- You can add in questions specific to your organisation
- Compare your results and progress against other SME's
- Track your results and progress over time
- Comprehensive, easy to read results
- Includes recommended actions that you can implement almost immediately
